GLOSSARY

MSC – certified by the Marine Stewardship Council, an international organization setting the standard for sustainable fishing with full traceability.

● – Seafood Watch® Best Choice. Abundant, well-managed, and caught in environmentally friendly ways.

● – Seafood Watch® Good Alternatives. While not rated Green, these selections are still caught using sustainable methods and we constantly monitor the health of these fisheries.

OPEN NET PENS – a form of aquaculture that raises fish in contained areas in open water.

DEEP SET LONGLINE – a central fishing line with multiple baited hooks, set deep enough in the water to avoid unwanted bycatch.

HOOK AND LINE, TROLL AND POLE – using a pole and one or more baited hooks to catch fish in smaller quantities, either with the boat standing still or moving at a slow speed.
